SafeDoor[®]

SOFT DOOR

SafeDoor[®]

Ligature safe door from Norix[®] Furniture provides a balance of safety and privacy in demanding environments. This unique door design hangs with magnetic nylon hinges that attach to metal door frames but collapse with just 20 pounds of force mitigating ligature risk. The high-quality vinyl material is RF welded over high-density polyurethane foam to withstand abuse.

Features That Matter

Anti-Ligature Design

The unique door design uses magnetic nylon hinges that attach to metal door frames but collapse with just 20 lbs. of force to mitigate ligature risk.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

Extreme Durability

The robustly engineered, high-density polyurethane foam core is designed to withstand abuse and maintain long-term durability.

Fire-Retardant

The polyurethane foam core and vinyl cover are fire-retardant, offering enhanced safety and peace of mind for residents and staff.

RF Welded Seams

A high-quality vinyl cover is radio-frequency welded over a polyurethane foam core for added durability and bed bug resistance.
