Wink™

SEATING SERIES

Wink™ Series

The Wink™ Series is a true epitome of style and functionality. Wink™ is constructed with a one-piece, rotationally molded polyethylene frame that is impervious to fluids, incredibly impact resistant and easy to clean. Its playful, curvy design is available in a wide array of color choices and hundreds of upholstery options, allowing any facility to indulge in a touch of elegance without sacrificing safety.

Lounge Arm Chair

Features That Matter

Field-Replaceable Cushions

Field-replaceable cushions provide the freedom to make color changes or design updates quickly and easily without requiring a full chair replacement.

Tamper Resistant

The upholstered seat base is fastened with Torx secure hardware that is specially engineered to eliminate exposed edges and mitigate any opportunity for tampering.

Concealed Staples

The upholstery is double stitched with concealed staples for additional durability and for the safety of residents and staff.

Rounded Edges

Smooth, rounded edges provide a pleasing aesthetic and contribute to a safe design.

Ballastable

Ballasting offers additional security by adding weight, reducing the risk of moving or throwing the chair.

Non-Removable Glides

Non-removable, nylon floor glides protect the floor from scratching without risking the safety of residents and staff.

Easy Cleanability

Hospital-grade cleaners can safely be used for sanitation on the molded base and arm rests without effecting the surface material or color. Built in clean-out spaces on the sides and back simplify the cleaning process.

TruColor™ Technology

Our premium TruColor™ Technology creates full and consistent coloring that is void of any streaks, speckles or other color disruptions.

Extreme Durability

The heavy-duty, durable design offers enhanced safety for residents and peace of mind for staff – even when positioned in unsupervised spaces.
