

Norix Behavioral Health Furniture

Mental Health | Substance Abuse

Norix Healthcare Furniture

Norix is a leading provider of behavioral healthcare furniture solutions that are specially designed for facilities looking to create safe and secure environments. Designed and engineered for critical applications, Norix psychiatric furniture is ideally suited for residents or patients requiring exceptional care in behavioral healthcare settings.

Our unique mental healthcare furniture includes ligature-resistant products designed after consultation with field-experienced practitioners who are well-versed in safety requirements for patients and staff. Our durable furniture products are easy to clean, tamper proof and resistant to cleaning agents and fluids.

Select from a variety of special needs furniture including behavioral healthcare tables, beds and seating to suit your requirements for safety, security and the creation of a therapeutic and residential look.

High Back Chair

The high back chairs offer comfortable and supportive seating for geriatric populations and patients who may be immobilized or medicated.

Highly durable polyurethane arm caps are one piece, full length, pick resistant and securely bolted to steel frame.

Comfortable lumbar support and ergonomically correct style for comfort and easy egress.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

View our complete line of upholstery options at www.norix.com/fabrics.

Robust fully welded steel frame for maximum strength and durability.

Generous seat width and cushioned support provide comfortable lounging.

Injection molded nylon feet are engineered for strength and to protect floors.

Harmony™

The Harmony Series blends form and function to deliver the unique combination of exceptional durability and a residential look for facilities that need humanizing products for their challenging environments. Limited lifetime warranty for structural integrity. In spite of that rugged interior, the Harmony Series is elegant, versatile and aesthetically pleasing.

Harmony™ Series

Arm Cap/Feet

Options

- Round or Square Back
- Full or Short Apron
- Clean Out or Standard Fit
- Open or Closed Bottom
- CAL TB 133 upgradeable upholstery

- 1000 lb Static Load

Highly durable polyurethane arm caps are one piece, full length, pick resistant and securely bolted to steel frame.

Hundreds of upholstery options.

Seat and back junction available as standard fit or with an extended clean out.

Robust fully welded steel frame for maximum strength and durability.

Generous seat width and cushioned support provide comfortable lounging.

Injection molded nylon feet are engineered for strength and to protect floors.

Superior Construction

Interior steel frame for unparalleled structural integrity. Arm chair weighs 130 lbs. Love seats, sofas, and benches off the same construction with more seating options.

Element™

Element is a designer-friendly series of lounge furniture that provides facilities with maximum versatility. Mix and match the Element Lounge Chair, Love Seat and Sofa throughout your facility depending upon the needs of spaces.

Features and Benefits

Whether you are picking a lounge chair, loveseat or sofa, Element will add to or create an aesthetic appeal in dayrooms, lounges, lobbies or other areas in your healthcare facility where you need attractive furniture. Additionally, the series was designed to last and is appropriate for constant-use environments in facilities that see lots of traffic. Learn more about Element's features and benefits below.

Durability

Element is highly durable due to construction and the materials. On the inside, Element is supported by a sturdy milled-wood frame that is connected with metal hardware to ensure durability and longevity. On the outside, the arm rests are protected and covered with a specially formulated, pick and pry resistant arm cap. These arm caps are available in two colors – black and taupe – and are mounted to the wood frame with steel T-nuts.

Specially formulated, pick and pry resistant arm cap attached to frame with T-nuts.

Clean Out between seat and back allows dirt and debris to fall to the ground rather than gather in chair.

Upholstery available in a variety of patterns and grades.

Frame is made of heavy duty milled wood for strength and durability.

Injection molded nylon feet are engineered for strength and to protect floors.

Generous seat width and cushioned support provide comfortable lounging.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

GROUP / DAYROOM

RockSmart™

RockSmart is a contemporary rocking chair designed from the ground up for soothing comfort, exceptional durability and aesthetic appeal. Its signature one-piece shape is sculpted from rotationally molded polyform for a calming, safe and comfortable rock. The 18" is slightly taller, wider, and deeper. Both have a heavier formulation should your facility need a more secure rocker. Available in two sizes and weights to fit your needs.

TruColor™

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Sculpted shape provides an ergonomically comfortable sit.

One-piece rotationally molded polyethylene with lightly textured surface allows for easy cleaning.

No assembly required.

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 500 lb static load while also CAL TB133 compliant.

Forté™ Lounge

Forté™ is the designer series of furniture that is fashioned for comfort, flexibility and durability. With a variety of colors to choose from and an upholstery option for seating, this series is made to humanize behavioral health environments and includes a lounge chair and guest chair that come with or without arms. These products are engineered and proven suitable for daily use in demanding environments.

Extremely durable, one-piece rotationally molded polyethylene seat is impervious to fluids and incredibly impact resistant.

Molded-in steel threaded inserts provide secure steel to steel connections and optional ganging side-to-side.

Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also CAL TB133 compliant.

Generous seat width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Add additional weight with sand.

TruColor™
Premium material is fully compounded for superior color, fire retardancy and quality assurance.

This is definitely not a chip off the old block – pun intended. This is Wink, a newly envisioned lounge chair with attitude, aesthetics and durability to boot. It's a cure for the ordinary, with a wide array of colors and fabrics to choose from. It's cool. It's hip. And its bold curves make other chairs seem ... well ... square.

A Special Frame

This lounge chair features a sturdy, one-piece rotationally molded polyethylene frame with a lightly textured surface that allows for easy cleaning. Non-removable nylon glides protect your floors.

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Hundreds of upholstery options.

The seat features a side wipeout and back cleanout for easy cleaning.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

View our complete line of upholstery options at www.norix.com/fabrics.

Generous cushion width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Smooth, continuous molded surface allows for easy cleaning.

Hollow base can be weighted with up to 75 lbs of sand for a total chair weight of 117 lbs.

Non-removable steel encased floor glides for floor protection.

Sierra Series

There is no substitute for natural wood to create that soothing feel, residential look and sense of normalcy you're striving for. Constructed of natural oak butcher-block, the vertical end arms are designed to combine intensive-use durability with the beauty of natural wood. Each end arm is 1 3/4" thick, rounded for safety, and features a contemporary "sloped" design for comfort and stylish good-looks. Choose solid end arms or distinctive open end arm design.

The Beauty of Natural Wood

Cushions are the "heart" of Sierra, and the natural wood end arms provide the "soul." A sealer coat plus satin finish coat helps protect the wood from spills and mishaps.

Non-absorbent vinyl exterior rotationally molded over a tubular steel frame – then filled with soft, polyurethane foam.

Tested to 1,000 lb static load.

1 3/4" thick butcher-block red oak, rounded for safety, with sealer coat and satin finish coat to protect the wood.

Frame inside seat cushion is 2 1/4" diameter horizontal cross tubes structure of 18 gauge steel to form a rigid interior framework and provide a secure means to connect cushions and end frames, as well as extend seating to two and three seat groupings.

3/8" tamper-resistant, Torx-head fasteners bolt right into the steel frame for a secure steel to steel connection.

ANSI/BIFMA X5.4-2005
1000 lb Static Load

Meets the stringent ANSI/BIFMA X5.4-2005 furniture standard, dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 750 lb static load while also Cal TB133 compliant.

Comfortable lumbar support and ergonomically correct style for comfort and easy egress.

Extremely durable, 1/4" thick rotationally molded skin is impervious to fluids and puncture resistant to 184 lbs.

Robust Durability

Smooth, exterior surface is impervious to fluids and highly puncture resistant, yet easy to clean and sanitize. Fabricated drip edge allows moisture to run off the chair and not into the base.

Seamless chemically resistant surface is easy to clean and sanitize for greater infection control.

TruColor™

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

3 lb density polyurethane foam filling for cushioned comfort.

Check out Hondo Nuevo® durability video:
norix.com/hondovideo

Testing Strong

Hondo Nuevo is compliant with multiple flammability standards, including CAL TB133, as well as the rigorous BIFMA 5.4 durability standard for lounge seating. It also is GREENGUARD and GREENGUARD Gold Certified after stringent testing showed it to be in compliance with the low emissions standards set by UL Environment for indoor facility use.

Hondo Nuevo®

A new line of unique furniture that combines superior durability, comfort and style and that includes chair, bench and wedge options that allow for flexible, modular seating arrangements. Hondo Nuevo® is specially designed for healthcare interiors where robust products are a must.

Modern Design

The Hondo Nuevo® Series combines modern design, ergonomically correct style and comfortable lumbar support with a beautiful, thick vinyl skin and 3 lb density polyurethane foam filling. This unique combination of superior durability, comfort and style is available in several seat, bench and wedge options to create flexible modular seating arrangements. Molded exterior skin tops are attached with tamper resistant fasteners to your choice of molded plinth, steel, molded wood grain leg or genuine wood leg base options.

High Back Chair

The high back option offers facilities yet another tool to help humanize and secure their environments. High back chairs offer comfortable and supportive seating for geriatric populations and patients who may be immobilized or medicated.

Comfortable lumbar support and ergonomically correct style for comfort and easy egress.

Extremely durable, 1/4" thick rotationally molded skin is impervious to fluids and puncture resistant to 184 lbs.

3 lb density polyurethane foam filling for cushioned comfort.

Mix-Up™

Mix-Up is a new *upholstered* furniture line from Norix that allows you to use five different-shaped products to produce endless configurations. This diverse series is perfect for waiting rooms, lobbies or any area where playful, attractive and durable furniture is applicable.

Endless *upholstery* options and three base colors allow facilities to pick an aesthetic that perfectly matches their environment. Choose products that are round, square, wedge, semi-circle and rectangle. Then ... well ... mix them up!

Materials

Mix-Up can bring a pop of color or a calming element to facilities due to the enormous *upholstery* options available. Choose *upholstery* in different grades, colors, patterns, materials and price points to fit your budget and requirements. High density foam inside the chair allows for comfortable yet stable sitting, while the base is made of high impact polyethylene that is available in three neutral colors, each of which pairs well with nearly all upholstery options.

Shapes

Mix-Up pieces are highly configurable due to their variety in shapes. The *upholstered* products are designed in round, square, wedge, semi-circle and rectangles. This allows you to mix and match different forms to create highly customized configurations that meet your facility's requirements or vision. Want to use the rectangles to create a square? You can do that. Mix and match shapes to create your own artistic configuration? Sure. Use these products to accompany other Norix product lines? Go for it!

Features and Benefits

Mix-Up is more than just an attractive and highly configurable line of furniture consisting of five unique shapes. The high-grade materials and durable construction make these products suitable for high traffic areas in any space in your facility. Below, learn more about the technical specifications of this new and exciting product.

Five different shapes allow for endless configurations.

High density foam interior provides stability and comfortable sitting.

Enormous upholstery options in different grades, colors, patterns, materials and price points.

High-impact polyethylene bases available in three colors.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility.

Jupiter Weighted-Down Tables

Sometimes you want a table that is easy to move around. Other times, you'd like that table to stay in one place, but you don't want to anchor it to the floor. Enter the Norix Jupiter Table. Jupiter is designed to be weighted on site to maintain space flexibility and allow for efficient floor maintenance as the needs of an environment change. Loading the base with up to 300 pounds of sand keeps the table solidly in one place.

Finish on the Top

We use the toughest grade available and seal it with a specially formulated, highly durable molded urethane edge. The permanently affixed edge has a radius profile for safety and comfort making it ideal for food service applications. We can also provide our exclusive game top pattern that includes checkers, chess, backgammon and solitaire. Popular top sizes are available in either Plain or Game Top and come in 36" Round and Square; 42" Round and Square.

Special 1 1/2" thick table top for additional strength.

Molded edge is radiused for safety and comfort, pressure fused to the top, rendering it firmly attached and highly sanitary.

Selected material permanently bonded to a core of 45 lb density particle board with embedded T-nuts for securing top to base.

Base: Rotationally molded, specially formulated, fire-retardant, high impact polyethylene with ultraviolet light stabilizers (to reduce fading).

Slightly textured maintenance free surface allows for easy cleaning.

Product tested to 1,000 lb static load.

X-Base Series

Years ago, we were challenged to design an institutional-grade table that defined each person's space and hindered the passing of contraband from one individual to another on the opposite side. Our answer was the popular, rugged X-Base Table with its unique "X" base design. Today, the X-Base Table is used in high-security and special needs facilities all across the country.

Molded edge is radiused for safety and comfort, pressure fused to the top, rendering it permanently non-removable and highly sanitary.

Product tested to 1000 lbs static load.

Premium Top

High quality laminate surface with an edge that is pressure fused to the core with a specially formulated, highly durable molded urethane material. The permanently affixed edge has a radius profile for safety and comfort making it exceptional for food service applications. We can also provide our exclusive game top pattern that includes checkers, chess, backgammon and solitaire.

Oasis® Cafeteria

If your environment demands a more robust solution for cluster seating, your search is over. The Oasis™ Series is designed and engineered specifically for dayrooms, dining halls and visitation areas. Oasis is perfect for situations where users need more back support than traditional stools provide.

Safety & Comfort

Oasis' innovative swivel seats allow easy access and provide the comfort of full lumbar support. The molded polyethylene seat shells are durable and easy to clean. Seats attach securely to reinforced, heavy-duty swivel plates with all-steel, tamper-resistant connections.

Superior Performance

The Oasis table top delivers superior performance, day in and day out, year after year. High-quality laminate surface features a rounded edge that is pressure-fused to the core with a specially formulated, highly durable molded urethane material. Edges are permanently affixed to the top, making it highly sanitary – ideal for food service applications. Also available in a special ADA version with a reinforced 72" long table top.

Strength & Security

A sturdy 14 gauge steel frame gives Oasis its rock-solid foundation. The rugged frame provides seat support and understructure for the table top. The bottom of the vertical seat tube has a fully welded plate that holds either a large-stem adjustable glide or an enclosed, non-removable anchor bolt for floor-mounting.

Premium TruColor™ material is fully compounded for superior color, fire retardancy and quality assurance.

45 lb density M3 grade particle board, with permanently embedded T-nuts for securing the top to the base.

Tested to 1,000 lbs static load.

Ergonomic seats provide back support and swivel for easy access and egress.

One-piece seat and back. Smooth, non-absorbent surface is easy to clean.

Molded-in threaded steel inserts provide for tamper-resistant, "steel-to-steel" attachment to reinforced seat support plate.

Non-removable glides (or bolt-down).

Molded edge is radiused for safety and comfort, pressure fused to the top, rendering it permanently non-removable and highly sanitary.

Heavy-duty cluster seating. Designed and engineered specifically for intensive-use environments such as dayrooms and dining areas.

3/4" thick and 2" wide solid hardwood frame with rounded edges for safety and security.

Leg Style Series

When you start with 4" diameter 14 gauge tubular steel legs fully welded to 1/4" steel mounting plates, you end up with an incredibly strong, stable and durable table. The legs are joined to the top using tamper-resistant screws connected to embedded T-nuts, for a secure steel-to-steel connection. Optional 2 1/2" legs provide an attractive residential alternative. Legs are solid as a rock. Lean on it with all your weight. The Leg Style table won't wobble or tip. That's peace of mind.

What's On Top

We pressure fuse our top to the core with a specially formulated, highly durable molded urethane edge. The permanently affixed edge has a radius profile for safety and comfort making it exceptional for food service applications. We also can provide our exclusive game top pattern that includes checkers, chess, backgammon and solitaire.

Under & Beyond

The Leg Style table is engineered and built for continuous daily service in any behavioral health environment, but sometimes you want to make sure it stays put. In addition to super tough, tamper-resistant adjustable glides, we also give you the option of bolt-down tabs ... just to be sure.

Permanently bonded to a core of 45 lb density M3 grade particle board with permanently embedded T-nuts for securing top to base with a metal-to-metal connection.

Product tested to 1,000 lb static load.

Harmony™

The Harmony Series blends form and function to deliver the unique combination of exceptional durability and a residential look for facilities that need humanizing products for their challenging environments. Limited lifetime warranty for structural integrity. In spite of that rugged interior, the Harmony Series is elegant, versatile and aesthetically pleasing.

Highly durable polyurethane arm caps are one piece, full length, pick resistant and securely bolted to steel frame.

Hundreds of upholstery options.

Seat and back junction available as standard fit or with an extended clean out.

Superior Construction

Interior steel frame for unparalleled structural integrity. Arm chair weighs 130 lbs. Love seats, sofas, and benches offer the same construction with more seating options.

Generous seat width and cushioned support provide comfortable lounging.

Robust fully welded steel frame for maximum strength and durability.

Injection molded nylon feet are engineered for strength and to protect floors.

High Back Chair

The high back chairs offer comfortable and supportive seating for geriatric populations and patients who may be immobilized or medicated.

Highly durable polyurethane arm caps are one piece, full length, pick resistant and securely bolted to steel frame.

Comfortable lumbar support and ergonomically correct style for comfort and easy egress.

Robust fully welded steel frame for maximum strength and durability.

Generous seat width and cushioned support provide comfortable lounging.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

View our complete line of upholstery options at www.norix.com/fabrics.

Injection molded nylon feet are engineered for strength and to protect floors.

Element™

Element is a designer-friendly series of lounge furniture that provides facilities with maximum versatility. Mix and match the Element Lounge Chair, Love Seat and Sofa throughout your facility depending upon the needs of spaces.

Features and Benefits

Whether you are picking a lounge chair, loveseat or sofa, Element will add to or create an aesthetic appeal in dayrooms, lounges, lobbies or other areas in your healthcare facility where you need attractive furniture. Additionally, the series was designed to last and is appropriate for constant-use environments in facilities that see lots of traffic. Learn more about Element's features and benefits below.

Durability

Element is highly durable due to construction and the materials. On the inside, Element is supported by a sturdy milled-wood frame that is connected with metal hardware to ensure durability and longevity. On the outside, the arm rests are protected and covered with a specially formulated, pick and pry resistant arm cap. These arm caps are available in two colors – black and taupe – and are mounted to the wood frame with steel T-nuts.

Specially formulated, pick and pry resistant arm cap attached to frame with T-nuts.

Clean Out between seat and back allows dirt and debris to fall to the ground rather than gather in chair.

Upholstery available in a variety of patterns and grades.

Frame is made of heavy duty milled wood for strength and durability.

Injection molded nylon feet are engineered for strength and to protect floors.

Generous seat width and cushioned support provide comfortable lounging.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

LOBBY / WAITING ROOM

Gibraltar™ Beam Seating

At last, a collection of in-line seating that delivers intensive-use security and durability in a sleek, contemporary design. Gibraltar is designed to survive the rigors of continuous-use – and look great doing it.

TruColor™

Premium TruColor™ material is fully compounded for superior color, fire retardancy and quality assurance.

Extremely durable one-piece molded polyethylene seat and back. Smooth, seamless non-absorbent surface is easy to clean.

2" diameter, 14 gauge tubular steel, bent and welded to provide arm or armless in-line seating. Standard configurations for 1 to 4 people.

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also Cal TB133 compliant.

Heavy duty flat steel plate welded to the frame at each seat location to provide strength, support and a mounting platform on which the seat is securely attached.

Comfort By Design

Gibraltar starts with a roomy ergonomic seat. The comfortable seat is a full 20" wide, with plenty of room for today's user. Gibraltar seats are rotationally molded from durable polyethylene – fire-retardant, non-absorbent and easy to clean. Molded-in threaded steel inserts provide for tamper-resistant, "steel-to-steel" attachment to base frame.

Forté™ Occasional Table

Free standing occasional tables can be optionally ganged with lounge seating for intermediate or corner tables. Choose one of three base options, wood, steel or molded polymer and pair with your choice of molded polymer or laminate top with permanently affixed urethane edge. All tops come with embedded T-nuts for a secure steel to steel connection.

Polyurethane edge is radiused for safety and pressure fused to the top, rendering it permanently non-removable and highly sanitary. 1 3/4" thick edge profile.

Decorative high pressure laminate is permanently bonded to a core of 45 lb density particle board with permanently embedded T-nuts for securing top to base.

Cut, formed and welded steel. 1 1/2" square steel tubing with 12 gauge structural members.

Forté™ Lounge

Forté™ is the designer series of furniture that is fashioned for comfort, flexibility and durability. With a variety of colors to choose from and an upholstery option for seating, this series is made to humanize behavioral health environments and includes a lounge chair and guest chair that come with or without arms. These products are engineered and proven suitable for daily use in demanding environments.

Extremely durable, one-piece rotationally molded polyethylene seat is impervious to fluids and incredibly impact resistant.

Molded-in steel threaded inserts provide secure steel to steel connections and optional ganging side-to-side.

Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also CAL TB133 compliant.

Generous seat width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Add additional weight with sand.

TruColor™
Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Arm Lounge

This chair offers the same durability, flexibility and aesthetic design as our armless chair, with the addition of arms which provide hand over ankle positioning for easier egress.

Armless Lounge

Our armless lounge chairs are made of one-piece rotationally molded polyethylene seats and come with the choice of steel, wood or molded bases. The chairs come in a variety of colors and are pitched slightly back for comfortable sitting.

Attenda® Series

The Attenda Series is designed to provide the strength, safety and cleanability required for the daily rigors in healthcare environments. The key to Attenda's strength and durability is its advanced construction. Molded in specially formulated, high-impact, fire-retardant polyethylene, each Attenda product is structurally enhanced for increased strength and durability. They are solid as a rock, yet feature seamless construction with rounded corners for added safety and security. Each piece is designed to be anchored flush to the wall or floor and can be easily sanitized. Most Attenda products also are ligature-resistant, giving you the peace of mind that you have selected safe and secure furniture for your facility and patients.

No tie-off points make the bed the go-to choice for those looking for anti-ligature furniture products.

Ask about our innovative NEW REMOVABLE RESTRAINT RING!

Attenda® Platform Beds

The cornerstone of the collection is the Attenda Bed — designed and engineered to exceed the expectations of practitioners who have tried everything. The Attenda Bed mounts in a corner, against a wall or free standing. Sturdy and seamless, the Attenda Bed features a raised lip around the bed deck for easy clean-up. An optional wall-mount headboard adds a touch of wood-grained style for a more residential appearance. No tie-off points make the bed the go-to choice for those looking for anti-ligature furniture products.

Remedy Sealed Seam Mattresses

Attenda® Sleigh Bed

The Attenda Sleigh Bed introduces contemporary design for a more residential, normalized appearance without sacrificing advanced construction for intensive-use applications in healthcare environments. Ideal for geriatric patients, the higher sleep surface makes it easier to administer to patients while the raised bed deck easily accommodates a patient lift device.

Remedy Sealed Seam Mattresses

Attenda® Nightstand

The Attenda Nightstand is the ideal companion piece to the Attenda Platform Bed. Open compartments provide for accessible storage of personal articles while maintaining easy visual inspection. The advanced construction delivers unsurpassed performance in healthcare environments and makes it uniquely suited for intensive-use applications. Molded in high-impact polymer, then filled with rigid structural foam, Attenda represents the pinnacle of robust durability. In addition, the product has no moving parts or tie-off points, making it ligature-resistant and safe for your BHC environment. Decorative High Pressure Laminate (HPL) top with durable resin edge is optional.

Attenda® Open Chest

The Attenda Open Chest is a particularly effective storage solution for an Attenda room ensemble. Open compartments provide ample storage capacity while maintaining easy visual inspection. Attenda's advanced construction delivers unsurpassed performance in healthcare environments and makes it uniquely suited for intensive-use applications. This anti-ligature product is safe and secure and helps decrease the risk of self-harm in your facility. Decorative High Pressure Laminate (HPL) top with durable resin edge is optional.

Attenda® Desk & Stool

Advanced construction for intensive-use applications in critical environments. Molded in high-impact polymer, and then filled with rigid structural foam. Seamless construction with rounded corners make this product ligature-resistant. Easy to clean. Bolt-down installation for safety and security. Attenda Desk features HPL top with durable molded edge as standard.

Attenda® Wall Mount Shelves

The Attenda Wall Mount Shelves are the go-to solution when free unencumbered space is at a premium. Open cubbies provide ample storage space while maintaining easy visual inspection. Attenda's advanced construction delivers unsurpassed performance in critical environments and makes it uniquely suited for intensive-use applications. Molded in high-impact polymer, then filled with rigid structural foam, Attenda represents the pinnacle of robust durability. Additionally, the product has no tie-off points, making it ligature-resistant, safe and secure.

Attenda® Wardrobe

Advanced construction for intensive-use applications in critical environments. Molded in high-impact polymer, then filled with rigid structural foam. Seamless construction with rounded corners. Easy to clean. Bolt-down installation for safety and security. Also available with no door.

Titan® Series

Looking for residential furniture that can endure years of use in your facility's demanding environment? Look no further than the Titan® Series from Norix – a complete line of steel case goods that combines functional versatility with the institutional durability of all-steel construction. There's no substitute for the strength, safety and durability of steel furniture, and Titan has emerged as the product of choice in institutional settings. Why? Because Titan was designed to perform in the most challenging healthcare environments. Titan products are heavy and heavy duty. You don't have to worry that they'll be invaded by bedbugs, picked apart, or broken through intensive-use. Steel stands the test of time, and provides the best value option. Day in and day out – year after year – Titan performance.

Panel Base Bed

Available in Panel Base Bed, Bunkable Panel Base Bed and Panel Base Bunk. Steel deck, steel end frames for optional bunking. Ships K.D. Optional headboard, footboard, bunk-locking clamps, bottom closure panel, ladder and safety rails.

Remedy Sealed Seam Mattresses

Nightstand

Steel Nightstand with two or three non-removable drawers. Drawers feature padlock hasp locking mechanism. Institutional-grade laminated top. Optional matching laminated drawer fronts.

Wardrobe

Freestanding Wardrobe with one fixed shelf and safety J-bar for hanging clothes. Integrated recessed finger pull. Adjustable floor leveler glides. Available in Single Wardrobe and Double Wardrobe. Ships K.D. in two boxes.

Table Desk

Steel Desk with healthcare-grade laminated top. Includes pencil drawer. Adjustable floor leveler glides.

Chest

Steel Chest with institutional-grade laminated top. Non-removable drawers. Available in 2, 3 and 5 drawer chests. Drawers feature padlock hasp locking mechanism. Optional matching laminated drawer fronts.

Remedy Sealed Seam Mattress

Ideally suited for Behavioral Healthcare environments. Foam core for cushioned comfort with no inner springs. Separate or integrated pillow options. Available in standard healthcare sizes. Polyurethane coated cover with welded seams for enhanced hygiene, security and durability. Remedy Series Mattresses feature 100% sealed seams that are radio frequency welded and guaranteed not to break.

Black Max is our most durable mattress and is suitable for the most extreme-use spaces in your facility. That's because the mattress is constructed with 100% sealed seams that are reinforced with maximum security stitching for unsurpassed seam strength. It's also constructed with an extremely impervious, polyurethane coated cover with reinforcing ripstop scrim. All of this makes Black Max highly durable and resistant to constant-use, bodily fluids, bed bugs and other challenges you may find in healthcare settings.

Shown with Attenda® Floor Mount Bed

Silver Secure is the perfect mattress for those facilities needing more durability and infection control than what is found in your typical healthcare mattress. It's constructed with a durable polyurethane-coated cover with reinforcing ripstop scrim, along with enhanced break strength for added security. An applicable product for the intensive-use found in healthcare environments.

Shown with Attenda® Sleigh Bed

Norix Blue is a durable mattress with infection control features that make it suitable for daily use in critical environments. It features 100% sealed seams for unsurpassed seam strength and a durable polyurethane coated cover. Day in, day out, Norix Blue will perform well above your expectations.

DuraVision™ Convex Mirrors

DuraVision polycarbonate mirrors from Norix are designed specifically for the challenging conditions found in healthcare facilities. The strength of polycarbonate combined with a solid, full foam backing and a unique steel frame design ensures these mirrors exceed the breakability and tamper resistance of any other product on the market.

Behind the Reflection

Most convex mirrors you see in commercial establishments and at intersections are made from acrylic. When tested to withstand impact, they'll be the first to break into knife-like shards. Our polycarbonate mirrors, with pure reflective coatings, are premium 3mm grade with a tensile strength of 9,400 psi. To further enhance the strength, we completely fill the cavity behind the mirror with high-density water blown urethane foam to limit the compression distance, thus eliminating the possibility of breakage from a severe blow. To make sure they stay in place, the DuraVision mirror perimeter is fully enclosed in a heavy duty powder coated steel frame that sits flush with the wall and ceiling and features countersunk screw holes to receive tamper-resistant fasteners.

Eliminating Blind Spots

DuraVision mirrors were designed to ensure the safety of facility, staff and patients. DuraVision mirrors permit staff the opportunity to observe blind corners and intersections without putting themselves or others in harm's way.

Healthcare grade, recessed ADA compliant shower seat. Easy-to-clean stainless steel finish.

Hilltop Outdoor

A complete line of behavioral health outdoor furniture — tables, benches and trash containers. Hilltop Outdoor Series can be bolted down for safety and has a pick proof bonded vinyl coating. 12 gauge steel legs and bracing. Perforated steel tops are U/V stabilized — water drains away. Ideal for outdoor recreation areas, visitor pavilions and staff break areas.

A Versatile Product

You can use Hilltop Tables, Benches and Trash Containers both indoors and out. Lobbies and visiting areas, locker rooms, food service areas, outdoor recreation areas, visitor pavilions ... anywhere you want attractive casual furniture with no worries about spills, bad weather or intensive-use.

Quality You Can Count On

Get it and forget it! All Hilltop Series products have been outdoor tested in the extremes of icy northern winters to the intense heat of the Southwest to the salt air of the oceans. The machine perforated 14-gauge steel tops and seats have a smooth UV-stabilized vinyl coating bonded to the steel that is impervious to both bad weather and constant use. Water drains through and the coating keeps the seat and tops from corroding and getting too hot in the sun. The machine perforations are smoother and provide a better fit than expanded metal. The legs and bracing are both 12-gauge steel and all fasteners are tamper-resistant and corrosion-resistant steel. The frames are coated with a smooth UV-stabilized vinyl coating.

Pick A Spot, Pick A Size

Hilltop products come in a variety of sizes for most applications. Square and rectangle tables, including a model for ADA applications. Six foot and eight foot benches that can be surface mounted, in-ground mounted or portable. Trash receptacles that look just as good inside as out. Outdoor healthcare furniture. You can count on Norix.
