	1	071-002	Pin in Torx® Driver T-40

Tools Needed

Variable Speed Drill
Pin in Torx® Driver T-40

Read and understand instructions completely before assembly.

1. Turning the furniture units upside down will simplify assembly. Typically, the bracket with the narrow slot (A) should be attached to the unit that will be on the left.

Assemble bracket (A) to the unit using (1) Screw (C), (1) Lock Washer (D), and (1) Flat Washer (E).

Note: Bracket (B) has a slot for the attachment screw. Depending on the size of the unit, the attachment screw may end up being located at either end of the slot or in the middle (see figure below). After assembling bracket (A), adjust bracket (B) to align with bracket (A) so that the tab will fit into the slot.

2. Assemble bracket (B) to the other unit using (1) Screw (C), (1) Lock Washer (D), and (1) Flat Washer (E).
