Titan® Series

Looking for residential furniture that can endure years of intensive-use in your facility's environment? The Titan® Series from Norix – a complete line of steel case goods that combines functional versatility with the extreme durability of all-steel construction. There's no substitute for the strength, safety and durability of steel furniture, and Titan® has emerged as the product of choice in firehouses across the country. Titan® was designed to perform in the most challenging environments. Titan is an ideal choice to replace problem wooden furniture. Titan® products are heavy ... and heavy duty. You don't have to worry that they'll be broken through intensive-use. Steel stands the test of time, and provides the best value option. Titan® delivers worry-free performance.

Panel Base Bed

Available in Panel Base Bed, Bunkable Panel Base Bed and Panel Base Bunk. Steel deck, steel end frames for optional bunking. Ships K.D. Optional headboard, footboard, bunk-locking clamps, bottom closure panel, ladder and safety rails.

Spring Bed Series

Spring deck bed with deck mechanically fastened to steel end frames. Available in Bunkable Spring Deck Bed and Spring Deck Bunk Bed. End frames have plastic adapter caps inserted into vertical members to allow bunking without additional parts or tools.

Nightstand

Steel nightstand with two tamper-resistant drawers. Drawers feature padlock hasp locking mechanism. Institutional-grade laminated top. Optional matching laminated drawer fronts.

Chest

Steel chest with institutional-grade laminated top. Tamper-resistant drawers. Available in 2, 3 and 5 drawer chests. Drawers feature padlock hasp locking mechanism. Optional matching laminated drawer fronts.

Drawer Locker

The Titan® Drawer Locker is sized to fit underneath Titan® Bunkable Frame Style Beds. The drawer slides are welded to the drawer body and are built with no moving parts. Features a padlock hasp locking mechanism, non-adjustable floor glides, ganging capability and a 2" caster that supports the front of the drawer when open.

Frame Style Bed

Frame style bed with steel deck mechanically fastened to steel end frames. Available in Bunkable Frame Style Bed or Frame Style Bunk.

Lift Deck Series

Lift deck bed with recessed padlock hasp and gas springs with dynamic dampening. Available in Lift Deck Bed and Bunkable Lift Deck Bed.

Table Desk

Steel desk with institutional-grade laminated top. Includes pencil drawer. Adjustable floor leveler glides.

Wardrobe

Freestanding wardrobe with one fixed shelf and safety J-bar for hanging clothes. Integrated recessed finger pull. Adjustable floor leveler glides. Available in Single Wardrobe and Double Wardrobe.

Protégé™ Series

Firefighter professionals have come to trust Protégé™ as a durable solution for firehouse bedroom furniture. Protégé™ by Norix provides reliable all-steel construction and a space-saving, attractive design. Combined with storage units, Protégé™ is an all-encompassing solution for firehouse dorms at a value price point.

Nightstand

The Protégé™ Nightstand's cabinet body and shelves are constructed out of 19-gauge steel, while the top is made of a high-impact density fiberboard and durable high pressure laminate.

Under Bed Storage

This two-drawer system fits perfectly underneath our Protégé™ Beds and features adjustable floor glides and a hasp locking mechanism for privacy and security.

Bunkable Bed

All steel construction with welded tubular bed deck and 36" x 80" sleep surface static load tested to 600 lbs. Integrated steel headboard and footboard is available with optional wood grain laminate headboard/footboard. With optional Bunk Bed Kit, bunkable end frames stack securely to create a bunk bed. Assembles in minutes with simple tools, all hardware included. Shown with Protégé™ Under Bed Storage.

Locker

This 18 inch wide freestanding single door locker is perfect for personal storage such as shirts, pants, jackets and other apparel that needs to be hung up.

Comfort Shield® Sealed Seam Mattress

Remedy and Transitions Series mattresses feature 100% sealed seams that are radio frequency welded and guaranteed not to break – for enhanced hygiene, security and durability.

REMEDY NORIX BLUE

Ideally suited for firehouse environments. Foam core for cushioned comfort with no inner springs. Separate or integrated pillow options. Available in standard sizes. Polyurethane coated cover with welded seams for enhanced hygiene and durability.

Tons of Seating Options

Seats and backs are constructed with heavy duty wood encased in foam. Hundreds of upholstery options are available in different fabrics, grades and price points, giving facilities the opportunity to match the furniture to their space.

Arm caps are available in wood or polyurethane, while frames are constructed with Black or Metallic Silver steel. Upholstery is top stitched and attached with hidden staples, and secure hardware means products are safer and tamper-resistant.

Forma Series

To provide customers and facilities with one source for all of their furniture needs, Norix has expanded its offerings with Forma, a modular upholstered seating line that is designed with attractive features and engineered to be highly durable. The ten pieces in this designer-friendly line of products – including arm chairs, cubes, benches and wedges – are ideal for lobbies, welcoming and waiting rooms.

Endless Configurations

Facilities can choose from plinth or steel bases, while Norix's expansive upholstery offerings give customers hundreds of options in different grades, fabrics and price points. Products can be bolted down, ganged or left free-standing, providing facilities maximum flexibility if new configurations are needed in the future or if furniture needs to stay in one place. Forma provides a high level of versatility and can help facilities with all of their furniture needs across their entire environment.

Vesta™ Series

The Vesta™ seating line excels in firehouse environments due to its robust and minimalist design. The sweeping form fully contacts the floor removing contraband concealment areas and ligature points. Modern style, combined with carefully studied color options, can help elevate any space.

Durable Beauty

Vesta's attractive residential appearance is an appropriate complement to any interior environment. Vesta is available in several colors and hundreds of upholstery options. Cushioning is stitched and attached with hidden staples and secure hardware to assist in keeping products safe and tamper-resistant.

Forté® Lounge

Forté® is the designer series of furniture that is fashioned for comfort, flexibility and durability. With a variety of colors to choose from and an upholstery option for seating, this series is perfect for fire stations and includes a lounge chair and guest chair that come with or without arms. These products are engineered and proven suitable for daily use in demanding environments.

Options: Upholstery, Ganging Kit, Bolt Down Kit, CAL TB 133 Upgradeable Upholstery, Ballasting for Plinth Base Only

Testing: GREENGUARD Gold Certified, California Technical Bulletin 117-2013, UL1056, ASTM E1537, NFPA 261, UL94 HB, British Standard BS 7176: 2007, BIFMA 5.4 15.4.2, 1000 lb Static Load

Premium TruColor™ material is fully compounded for superior color consistency and durability.

Molded-in steel threaded inserts provide secure steel-to-steel connections and optional ganging side-to-side.

Generous seat width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Extremely durable, one-piece rotationally-molded polyethylene seat is impervious to fluids and incredibly impact resistant.

Armless Lounge

Our armless lounge chairs are made of one-piece rotationally-molded polyethylene seats and come with the choice of steel, wood or molded bases. The chairs come in a variety of colors and are pitched slightly back for comfortable sitting.

Arm Lounge

This chair offers the same durability, flexibility and aesthetic design as our armless chair, with the addition of arms which provide hand over ankle positioning for easier egress.

Harmony™

The Harmony™ Series blends form and function to deliver the unique combination of exceptional durability and a residential look for facilities that need residential products for their challenging environments. Limited lifetime warranty for structural integrity. In spite of that rugged interior, the Harmony™ Series is elegant, versatile and aesthetically pleasing.

Seat and back junction available as standard fit or with an extended clean out. Backs available in square and round.

Hundreds of upholstery options.

Generous seat width and cushioned support provide comfortable lounging.

Injection-molded nylon feet are engineered for strength and to protect floors.

Robust fully welded steel frame for maximum strength and durability.

Highly durable polyurethane arm caps are one-piece, full length, and securely bolted to steel frame.

Superior Construction

Interior steel frame for unparalleled structural integrity. Arm chair weighs 130 lbs. Love seats, sofas, and benches offer the same construction with more seating options.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl or fabric for your facility. Both seat and back cushions are field replaceable.

Element™

Element™ is a designer-friendly series of lounge furniture that provides facilities with reliable performance. Mix and match the Element™ Lounge Chair, Love Seat and Sofa throughout your facility depending upon the needs of spaces.

Durability

Element™ is highly durable due to construction and the materials. On the inside, Element™ is supported by a sturdy milled-wood frame that is connected with metal hardware to ensure durability and longevity. On the outside, the arm rests are protected and covered with a specially formulated arm cap. These arm caps are available in black and are mounted to the wood frame with steel T-nuts.

Features and Benefits

Whether you are picking a lounge chair, love seat or sofa, Element™ will add to or create an aesthetic appeal in lounges, lobbies or other areas in your facility where you need attractive furniture. Additionally, the series was designed to last and is appropriate for constant-use environments in facilities that see lots of traffic.

Leg Style Series

When you start with 4" diameter 14 gauge tubular steel legs fully welded to 1/4" steel mounting plates, you end up with an incredibly strong, stable and durable table. The legs are joined to the top using tamper-resistant screws connected to embedded T-nuts, for a secure steel-to-steel connection. Optional 2 1/2" legs provide an attractive residential alternative. Legs are solid as a rock. The Leg Style Table won't wobble or tip. Lean on it with all your weight. That's peace of mind.

Heavy duty leg style tables built for stability. Engineered and suitable for continuous daily use in an fire station environment.

Permanently bonded to a core of 45 lb density M3 grade particle board with embedded T-nuts for securing top to base with a metal-to-metal connection.

Steel tubing welded to steel plate for attaching top.

Product tested to 1,000 lb static load.

Bottom of leg sealed by means of a fully welded inset threaded to accommodate an adjustable leveling glide.

Max-Master® Series

Engineered for superior strength and durability, the Max-Master® Series is particularly well suited for dining halls and lounges where reliable performance is a must. Whether bolted to the floor or freestanding on adjustable glides, the distinctive individual seat/leg design provides superior stability than traditional pedestal tables. Compression molded composite seats, premium table top and unique steel leg design deliver an exceptional table for continuous daily use in challenging environments.

Embedded T-nuts secure top to base with tight steel-to-steel connection for maximum long term reliability.

Molded edge is radiused for safety and comfort, pressure fused to the top, rendering it firmly attached and highly sanitary.

Four molded-in threaded inserts for superior metal-to-metal connection.

Choice of 3 tops with 4, 6 or 8 seats. Engineered and suitable for continuous daily use in a firehouse environment.

3" diameter, 14 gauge steel tubing.

Non-removable glides (or bolt-down)

Premium M3 Grade, 45 lb density particle board table top core is sandwiched between 1/8" thick hardboard and faced with premium 0.05" thick high pressure laminate for superior quality and long term durability.

13" diameter high density color impregnated compression molded composite that is highly scratch and stain resistant.
