## Kids Furniture Series

Does your furniture often fall prey to snotty noses, shoe-scuffs, dirty hands, sticky fingers, spilled milk, constant hitting, aggressive kicking, and even those kids who will try to use your products as an artist canvas or their own personal trampoline?

We understand, and we've got you covered. That's because for more than 35 years, Norix Furniture has designed and engineered durable, secure and aesthetically pleasing products for facilities that house people of a variety of ages. Now, we are happy to present a fun line of furniture that is produced specifically for schools, daycares, waiting rooms and other areas in facilities that receive constant-use from children, a demographic which is as gentle with furniture as they are with their dirty little sneakers.

## Durability & Cleanability

All products in our Kids Furniture Series have been rigorously tested to ensure their durability and safety. Specifically, products in this line are FDA approved and GREENGUARD Gold Certified. All products also surpass industry-standard dynamic and static weight load testing, making them safe and secure for kids of any size.

These products are made with rounded edges and no moving parts, giving you peace of mind that you have chosen safe products for your right space. Food stains? No problem. Crayon drawings of stick figures with large heads? No worries. The occasional exploding diaper? Yes, that too. Just do a little scrubbing as directed and our furniture will look like new... year after year.

**TESTING & CERTIFICATIONS**

FDA Approved and GREENGUARD Gold Certified for low chemical emissions to UL 2818. [UL.COM/GG](http://UL.COM/GG).

**COLOR CONSISTENCY**

Premium TruColor™ material is fully compounded for superior color consistency and durability.

**EXTREMELY DURABLE**

Made of rotationally molded, high-impact polyethylene for maximum durability.

**DESIGNED FOR SAFETY**

Rounded edges throughout product provide safeguard against injury. Designed with no holes or moving parts.

**CLEANABILITY**

Smooth surface is easy to clean and sanitize with common cleaning solutions when used as directed.

# A-Maze

A-Maze is a kids furniture product from Norix® that is a one-seat wonder due to the endless configurations that can be created with this fun kids series. Its four plush colors, secure construction and playful shape make this perfect for daycares, lobbies, dayrooms, play areas and any other place in your facility where children may gather.

This light-weight product can be moved and re-configured as needed and is applicable to high-traffic and constant-use areas.

*Due to differences in monitors, printers and materials, actual product colors may vary. Color chips are available for more accurate depiction of color.*

## Innovative Construction

Aside from being aesthetically pleasing and highly configurable, the construction and design of A-Maze make this a safe and secure product that is suitable for use by children. In particular, A-Maze is made of rotationally molded, high-impact polyethylene for maximum durability. It's also designed with no holes or moving parts, and features rounded edges for safety and security. You can rest assured that this kid-appropriate product also will provide a long-term furniture solution for your facility and look good along the way.

## Hex-It

Oh, Hex! No, we aren't commanding you to put a spell on it. The name Hex-It actually is derived from the hexagonal shape of this kids seating and table series from Norix®.

This multi-function marvel allows you to flip the product on one side and use it as a stool. Flip it on its other side and you have a table. It's an ideal kids seating solution with a fun shape that's ready to be configured to your space. Hex-It is adaptable, which could serve today's socially distanced classrooms well and it is easy to clean and sanitize for greater infection control.
