Fabrication & Material
One-piece, rotationally-molded polyethylene with lightly textured maintenance-free surface which allows for easy cleaning. Anti-ligature design with no internal openings. A built-in drainage channel prevents pooling by allowing liquids to flow to the back of the seat and drain off the sides. Molded-in floor glides protect the floor from scratching without risking the safety of residents and staff. Molded-in access port with a threaded screw cap for ballast weighting capability. High-impact polyethylene with ultraviolet light stabilizers (to reduce fading). Chemically resistant to blood, vinegar, urine, feces, salt solution, and chlorine solution. Premium TruColor™ polymer is fully compounded for superior color consistency and durability. Made in the U.S.A.

Warranty
5 year limited replacement warranty

Maintenance
For routine and regular cleaning maintenance, Norix recommends the use of Simple Green® or an equivalent cleaning product. This product is bleach/water solution cleanable and suitable for use with hospital-grade disinfectants (such as Virex®, Wexcide® or Oxivir Five 16®) per manufacturers' instructions.
