

NORIX

Arcadian

MOLDED BEDROOM SERIES

Arcadian Series

A culmination of over 40 years of experience designing robust furniture for intensive-use environments, the Arcadian Series offers the reliability you expect from Norix® products in a refreshing new look. Arcadian utilizes a unique blend of residential aesthetics and robust durability to form visually pleasing pieces, engineered to endure the rigors of challenging environments. Rotationally molded using a specially formulated, high-impact polyethylene, Arcadian's superior durability is further strengthened by several inverted, internal support ribs and use of concealed, tamper-resistant hardware.

Features That Matter

Ligature Resistant Design

The one-piece, seamless design eliminates pass throughs and tie offs, thus reducing ligature risk.

Inverted Support Ribs

Inverted, internal support ribs enhance overall strength and eliminate the need for interior foam.

Concealed Hardware

The ligature resistant floor anchoring system features concealed, tamper resistant hardware to reduce tampering risks and support a safe, secure environment.

Infection Control

The one-piece, seamless construction is impervious to fluids for superior infection control and easy sanitization.

Easy Cleanability

Bleach solutions and hospital-grade cleaners can safely be used for sanitation without affecting the surface material or color.

Fluid Containment

Each bed is designed with raised outer edges to keep fluids contained and a gently crowned top to allow fluids to drain towards the corners.

Environmentally Responsible

Each piece in this collection is 100% recyclable.

Strength Through Design

The considerate use of contours adds depth, supports overall strength, and contributes to a contemporary feel.

Rounded Edges

Smooth, rounded edges provide a pleasing aesthetic and contribute to a safe design.

Contraband Resistant

Specifically designed without any creases or nooks to mitigate the ability to hide contraband when bolted down.

Extreme Durability

The heavy-duty, structurally reinforced design offers enhanced safety for residents and peace of mind for staff.
