

Polycarbonate Wall Mirror

Large

Fabrication & Material

Extruded from the highest optical quality polycarbonate substrate from 100% virgin Lexan resin. Extrusion equipment is encapsulated in ISO 8 clean room with inline optical scanning providing the clearest mirror images with outstanding strength and impact resistance.

Warranty

1 year limited replacement warranty. The warranty does not cover damage resulting from improper installation, maintenance, accident or misuse.

Maintenance

Mirror can be cleaned with a micro-fiber cloth and non-abrasive soap and water. Do not use glass cleaner.

Installation

Norix only recommends its products to be attached to solid concrete surfaces. For all other applications consult your professional installer for proper attachment. Do not over tighten screws during installation. Avoid bevel and flat head screws, this may damage the polycarbonate. Installation hardware not supplied by Norix.

Model	R565-417
Weight	2 lbs / 0.9 kg

Dimensions	in	cm
Width	11.3"	28.7
Height	17.3"	44
Depth	0.25"	0.64

Assembly

None required.

**Intended for indoor use only*
