Respite™

RECLINER

Respite™ Recliner

The Respite Recliner combines therapeutic comfort with thoughtful safety features to deliver a restorative seating experience. Its smooth, adjustable recline supports patient relaxation, blood circulation, and breathing without requiring patient transfer. Fully concealed mechanisms minimize pinch points, reduce tampering opportunities, and support a safer patient experience, while an ergonomic internal foam structure provides lasting comfort for periods of extended use.

Features That Matter

Smooth Reclining Mechanism

A smooth, push-to-recline mechanism supports a full range of motion, allowing caregivers to comfortably reposition patients for treatment without needing to transfer them to another surface.

Concealed Components

Responsibly engineered with fully concealed mechanisms to eliminate pinch points, reduce tampering opportunities, and mitigate ligature risk.

Tamper-Resistant Access Panel

The base plate features a built-in, tamper-resistant access panel to simplify the cleaning process and support a safe, sanitary environment.

Medical-Grade Casters

Fully enclosed, lockable casters are hygienically designed for medical applications and offer smooth-running, 360° maneuverability for effortless repositioning.

Humanized Design

The use of familiar, soft-touch materials helps establish a more welcoming environment that feels less clinical and more residential.

Ergonomically Engineered

An ergonomically engineered internal foam structure provides sustained comfort during extended use.

Physiological Wellness

A reclined position can improve patient breathing, increase blood circulation and help ease muscle pain.

Standard Features

TB133 Upholstery, Rounded Edges, Contraband Resistant, Tamper Resistant, Extreme Durability
